1. PRODUCT AND COMPANY IDENTIFICATION

MICROPOSIT(TM) LOL(TM) 2000 Lift Off Layer

Supplier
Rohm and Haas Electronic Materials LLC
455 Forest Street
Marlborough, MA 01752 United States of America

For non-emergency information contact: 508-481-7950

Emergency telephone number
Chemtrec 800-424-9300
Rohm and Haas Emergency 215-592-3000

3. HAZARDS IDENTIFICATION

Emergency Overview

Appearance

Form liquid
Colour Colorless to yellow
Odour sweet

Hazard Summary

WARNING!
Flammable liquid and vapor. Causes irritation to eyes, nose, and respiratory tract.
Prolonged, repeated contact, inhalation, ingestion, or absorption through the skin, may cause toxic effects to internal organ systems (liver, kidney, central nervous system).

Potential Health Effects
Primary Routes of Entry: Inhalation, ingestion, eye and skin contact, absorption.

Eyes: May cause pain, transient irritation and superficial corneal effects.

Skin: Material may cause irritation. Prolonged or repeated exposure may have the following effects: central nervous system depression drowsiness defatting of skin leading to irritation and dermatitis

Ingestion: Swallowing may have the following effects: irritation of mouth, throat and digestive tract Repeated doses may have the following effects: central nervous system depression drowsiness

Inhalation: Inhalation may have the following effects: irritation of nose, throat and respiratory tract Higher concentrations may have the following effects: systemic effects similar to those resulting from ingestion

Target Organs: Eye Respiratory System Skin nervous system

Carcinogenicity
Not considered carcinogenic by NTP, IARC, and OSHA

4. FIRST AID MEASURES

Inhalation: Remove from exposure. If there is difficulty in breathing, give oxygen. Seek medical attention if symptoms persist.

Skin contact: Wash skin with water. Continue washing for at least 15 minutes. Obtain medical attention if blistering occurs or redness persists.

Eye contact: Immediately flush the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

Ingestion: Wash out mouth with water. Have victim drink 1-3 glasses of water to dilute stomach contents. Induce vomiting if person is conscious. Immediate medical attention is required. Never administer anything by mouth if a victim is losing consciousness, is unconscious or is convulsing.

Notes to physician
Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Flash point 30 °C (86 °F)

Suitable extinguishing media: Use water spray, foam, dry chemical or carbon dioxide. Keep containers and surroundings cool with water spray.
**Specific hazards during fire fighting:** This product may give rise to hazardous vapors in a fire. Vapors can travel a considerable distance to a source of ignition and result in flashback.

**Special protective equipment for fire-fighters:** Wear full protective clothing and self-contained breathing apparatus.

**Further information:** Pressure may build up in closed containers with possible liberation of combustible vapors.

---

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions**
Wear suitable protective clothing.
Wear respiratory protection.
Eliminate all ignition sources.

**Environmental precautions**
Prevent the material from entering drains or water courses.
Do not discharge directly to a water source.
Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

**Methods for cleaning up**
Contain spills immediately with inert materials (e.g., sand, earth).
Transfer into suitable containers for recovery or disposal.
Finally flush area with plenty of water.

---

### 7. HANDLING AND STORAGE

**Handling**
Use local exhaust ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed.

**Further information on storage conditions:** Keep away from heat, sparks, flame, and other sources of ignition. Practice good personal hygiene to prevent accidental exposure.

**Storage**
**Storage conditions:** Store in original container. Keep away from heat and sources of ignition. Storage area should be: cool dry well ventilated out of direct sunlight

---

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Exposure limit(s)**
Exposure limits are listed below, if they exist.

**Eye protection:** goggles
Hand protection: Butyl rubber gloves. Other chemical resistant gloves may be recommended by your safety professional.

Skin and body protection: Normal work wear.

Respiratory protection: Respiratory protection if there is a risk of exposure to high vapor concentrations. The specific respirator selected must be based on the airborne concentration found in the workplace and must not exceed the working limits of the respirator.

Engineering measures: Engineering methods to prevent or control exposure are preferred. Methods include process or personnel enclosure, mechanical ventilation (local exhaust), and control of process conditions.

10. STABILITY AND REACTIVITY

Hazardous reactions: Stable under normal conditions.

Conditions to avoid: High temperatures  Static discharge

Materials to avoid: Combustibles  Reducing agents  Oxidizing agents  bases  acids

Hazardous decomposition products polymerization: Carbon monoxide, carbon dioxide,  Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological information on this product or its components appear in this section when such data is available.
Component: **Cyclopentanone**
  Acute oral toxicity  
  LD50 rat  1,180 mg/kg

Component: **Cyclopentanone**
  Acute inhalation toxicity  
  LC50 rat  19,500 mg/m³

Component: **Cyclopentanone**
  Acute dermal toxicity  
  LD50 rabbit  >5,000 mg/kg

Component: **Cyclopentanone**
  Skin irritation  
  A single application to rabbit skin produced mild irritation.

Component: **Cyclopentanone**
  Eye irritation  
  Single application to the rabbit eye produced severe conjunctival irritation and corneal damage.

**12. ECOLOGICAL INFORMATION**

Ecotoxicological information on this product or its components appear in this section when such data is available.

**Cyclopentanone**

Ecotoxicity effects  
Toxicity to aquatic  
EC50 Daphnia magna 24 h  
1,435 mg/l

**13. DISPOSAL CONSIDERATIONS**

Environmental precautions: Prevent the material from entering drains or water courses. Do not discharge directly to a water source. Advise Authorities if spillage has entered watercourse or sewer or has contaminated soil or vegetation.

Disposal  
Dispose in accordance with all local, state (provincial), and federal regulations. Incineration is the recommended method of disposal for containers. Under RCRA, it is the responsibility of the product's user to determine at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This is because the product uses, transformations, mixtures, processes, etc. may render the resulting materials hazardous. Do not remove label until container is thoroughly cleaned. Empty containers may contain hazardous residues. This material and its container must be disposed of in a safe way.

15. REGULATORY INFORMATION

SARA TITLE III: Section 311/312 Categorizations (40CFR370): Immediate, delayed, flammability hazard

SARA TITLE III: Section 313 Information (40CFR372)
This product does not contain a chemical which is listed in Section 313 at or above de minimis concentrations.

U.S. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D):
U.S. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpt D)
This product does not contain any substances subject to Section 12(b) export notification.

US. Toxic Substances Control Act (TSCA) All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

California (Proposition 65)
This product does not contain materials which the State of California has found to cause cancer, birth defects or other reproductive harm.
